

Register a device to your account that does not have a browser.

The YUHousing WiFi network requires registration of all devices connected to the network. Use this procedure to register a device that does not have a browser, for example a video game console, an internet TV device or a Google Alexa.

- 1) To connect to the WiFi, select the SSID called <u>YUHousing</u>.
- 2) Depending on your Resident Hall location, please use the appropriate link below to access your personal portal. See picture below.

36th Street Residence:https://beren-36th.privatel-wifi.com/portal/yeshiva35th Street Residence:https://beren-35th.privatel-wifi.com/portal/yeshiva29th Street Residence:https://beren-29th.privatel-wifi.com/portal/yeshivaBrookdale Residence:https://brookdale.privatel-wifi.com/portal/yeshiva

Wilf Campus - All Resident Halls: https://wilf.privatel-wifi.com/portal/yeshiva

Please login to the right with your YUAD or Active Directory credentials.	Free Access
If you receive an error "Invalid Credentials" above, please contact the YU Helpdesk at (800) 829-7418 or e-mail at: helpdesk@yu.edu.	LDAP Login
If you experience any other difficulty connecting to the network contact Privatel Inc at (732) 974-1502 or email service@privatelinc.com	privatel yuad.uds.yu.edu
	Sign On
26	

3) On the splash page enter your YUAD account or Active Directory credentials under the LDAP Login just as you did to access the WiFi on your other device.

4) If your login credentials are accepted, you should see the following.

PRIVATEL	Home	Devices	Usage	Logout	
You are now logged in					
Login Successful					
Session Info You are online and connected to the Internet. Your online session never expires. You logged in on 08/27/2018 03:24 PM.					

5) To add a device to your account, simply click on "Device" at the top right of the screen. The following screen should appear.

0			Home	Devices Usage	Logour
	Device and Se	ssion Allocatio	n
